🎓 EDUCATION

Full Stack Web Development (Full-Time)
Masai School, Bengaluru
07/2022 – 06/2023

BSCG (Drop Out)
Indira Gandhi National Open University
01/2020 – 03/2022

Higher Secondary Education
Rajendra College, Chapra
04/2017 – 06/2019

🧠 TECHNICAL SKILLS

| Java | Spring Framework | MySQL |

| Spring Boot | Python | Flask |

| JavaScript | DSA | React JS | CSS |

👏 SOFT SKILLS

- Communication Skills
- Remote Collaboration
- Time Management
- Leadership
- Adaptability

🏅 CERTIFICATES

- HackerRank Java (Basic) ☒
- HackerRank SQL (Basic) ☒
- HackerRank Problem Solving (Basic) ☒
- Gen AI (Prompt Engineer) ☒

🪪 PROFESSIONAL SUMMARY

Enthusiastic Java Backend Developer with expertise in ChatGPT prompt engineering and Generative AI. Skilled in developing innovative solutions using cutting-edge technologies. Proven success in solo and collaborative projects, showcasing strong problem-solving and communication skills. Quick learner, capable of mastering new tech stacks.

💼 PROFESSIONAL EXPERIENCE

Masai School, Bengaluru
SDE Intern (Remote)
11/2023 – 05/2024
Key responsibilities:

- Collaborated on event management system development using Python, Flask, MySQL, and React.
- Created RESTful APIs for user registration, password management and email confirmation, sending login credentials to users upon registration.
- Enhanced backend APIs for device management, adding pagination, event-based user search and ensuring robustness through testing.

📁 PROJECTS

Portfolio Management System
Live ☒   **Github** ☒
Portfolio Management web application is designed to help admin to manage their portfolios and projects efficiently.
Features:

- Admin can do all the crud operations on all four entities: Manager, Project, Tasks and Resources.

Tech Stack: Generative AI | Python | Flask | React JS | MongoDB | CSS3

Safar
Presentation ☒   **Github** ☒
Safar is a web-based bus reservation portal that allows users to book bus tickets online.
Features:

- Admin & User registration with validation
- User can reserve the seats based on availability, give feedback and update details
- Admin can add new buses, routes and access the details of different users and reservations

Tech Stack: Java | MySQL | SpringBoot | Hibernate | Swagger | HTML | CSS | JavaScript
Areas of responsibility:

- Developed the bus module and its work-flow from an admin perspective
- Designed RESTful API end-points and front-end for this module
- Applied validations throughout the module and utilized Swagger to document the API endpoints

A collaborative project built by a team of 5 members in 4 days from scratch.
